(1) Kvetch about data

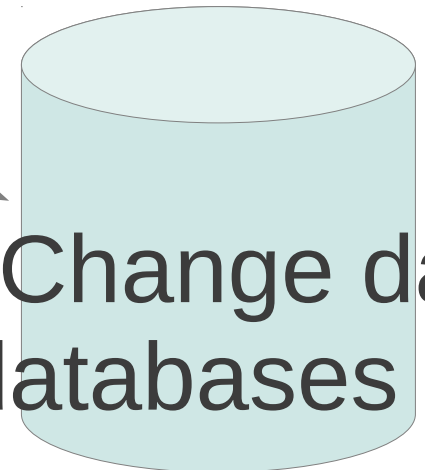

(2) Push to interested parties

(3) Human Filter

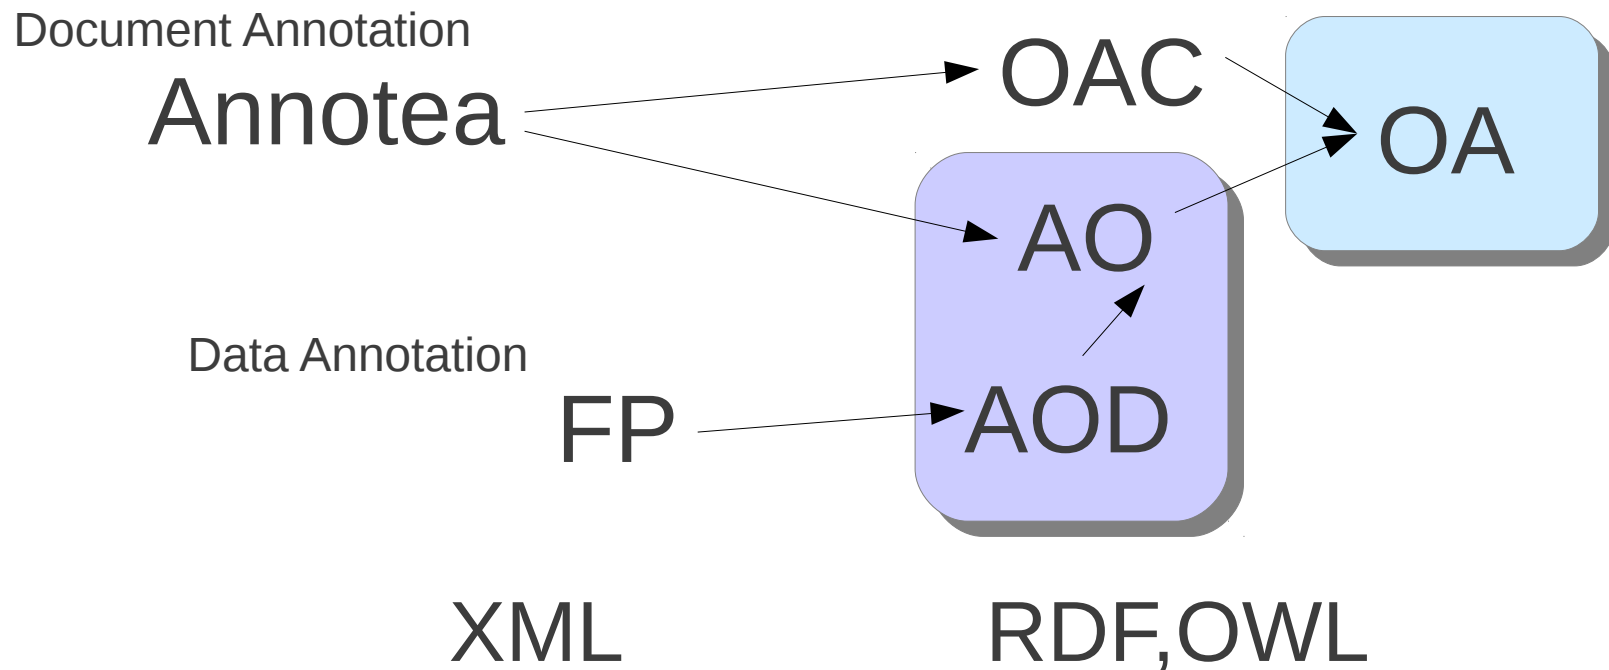

(4) Change data
in databases

(5) Store all assertions

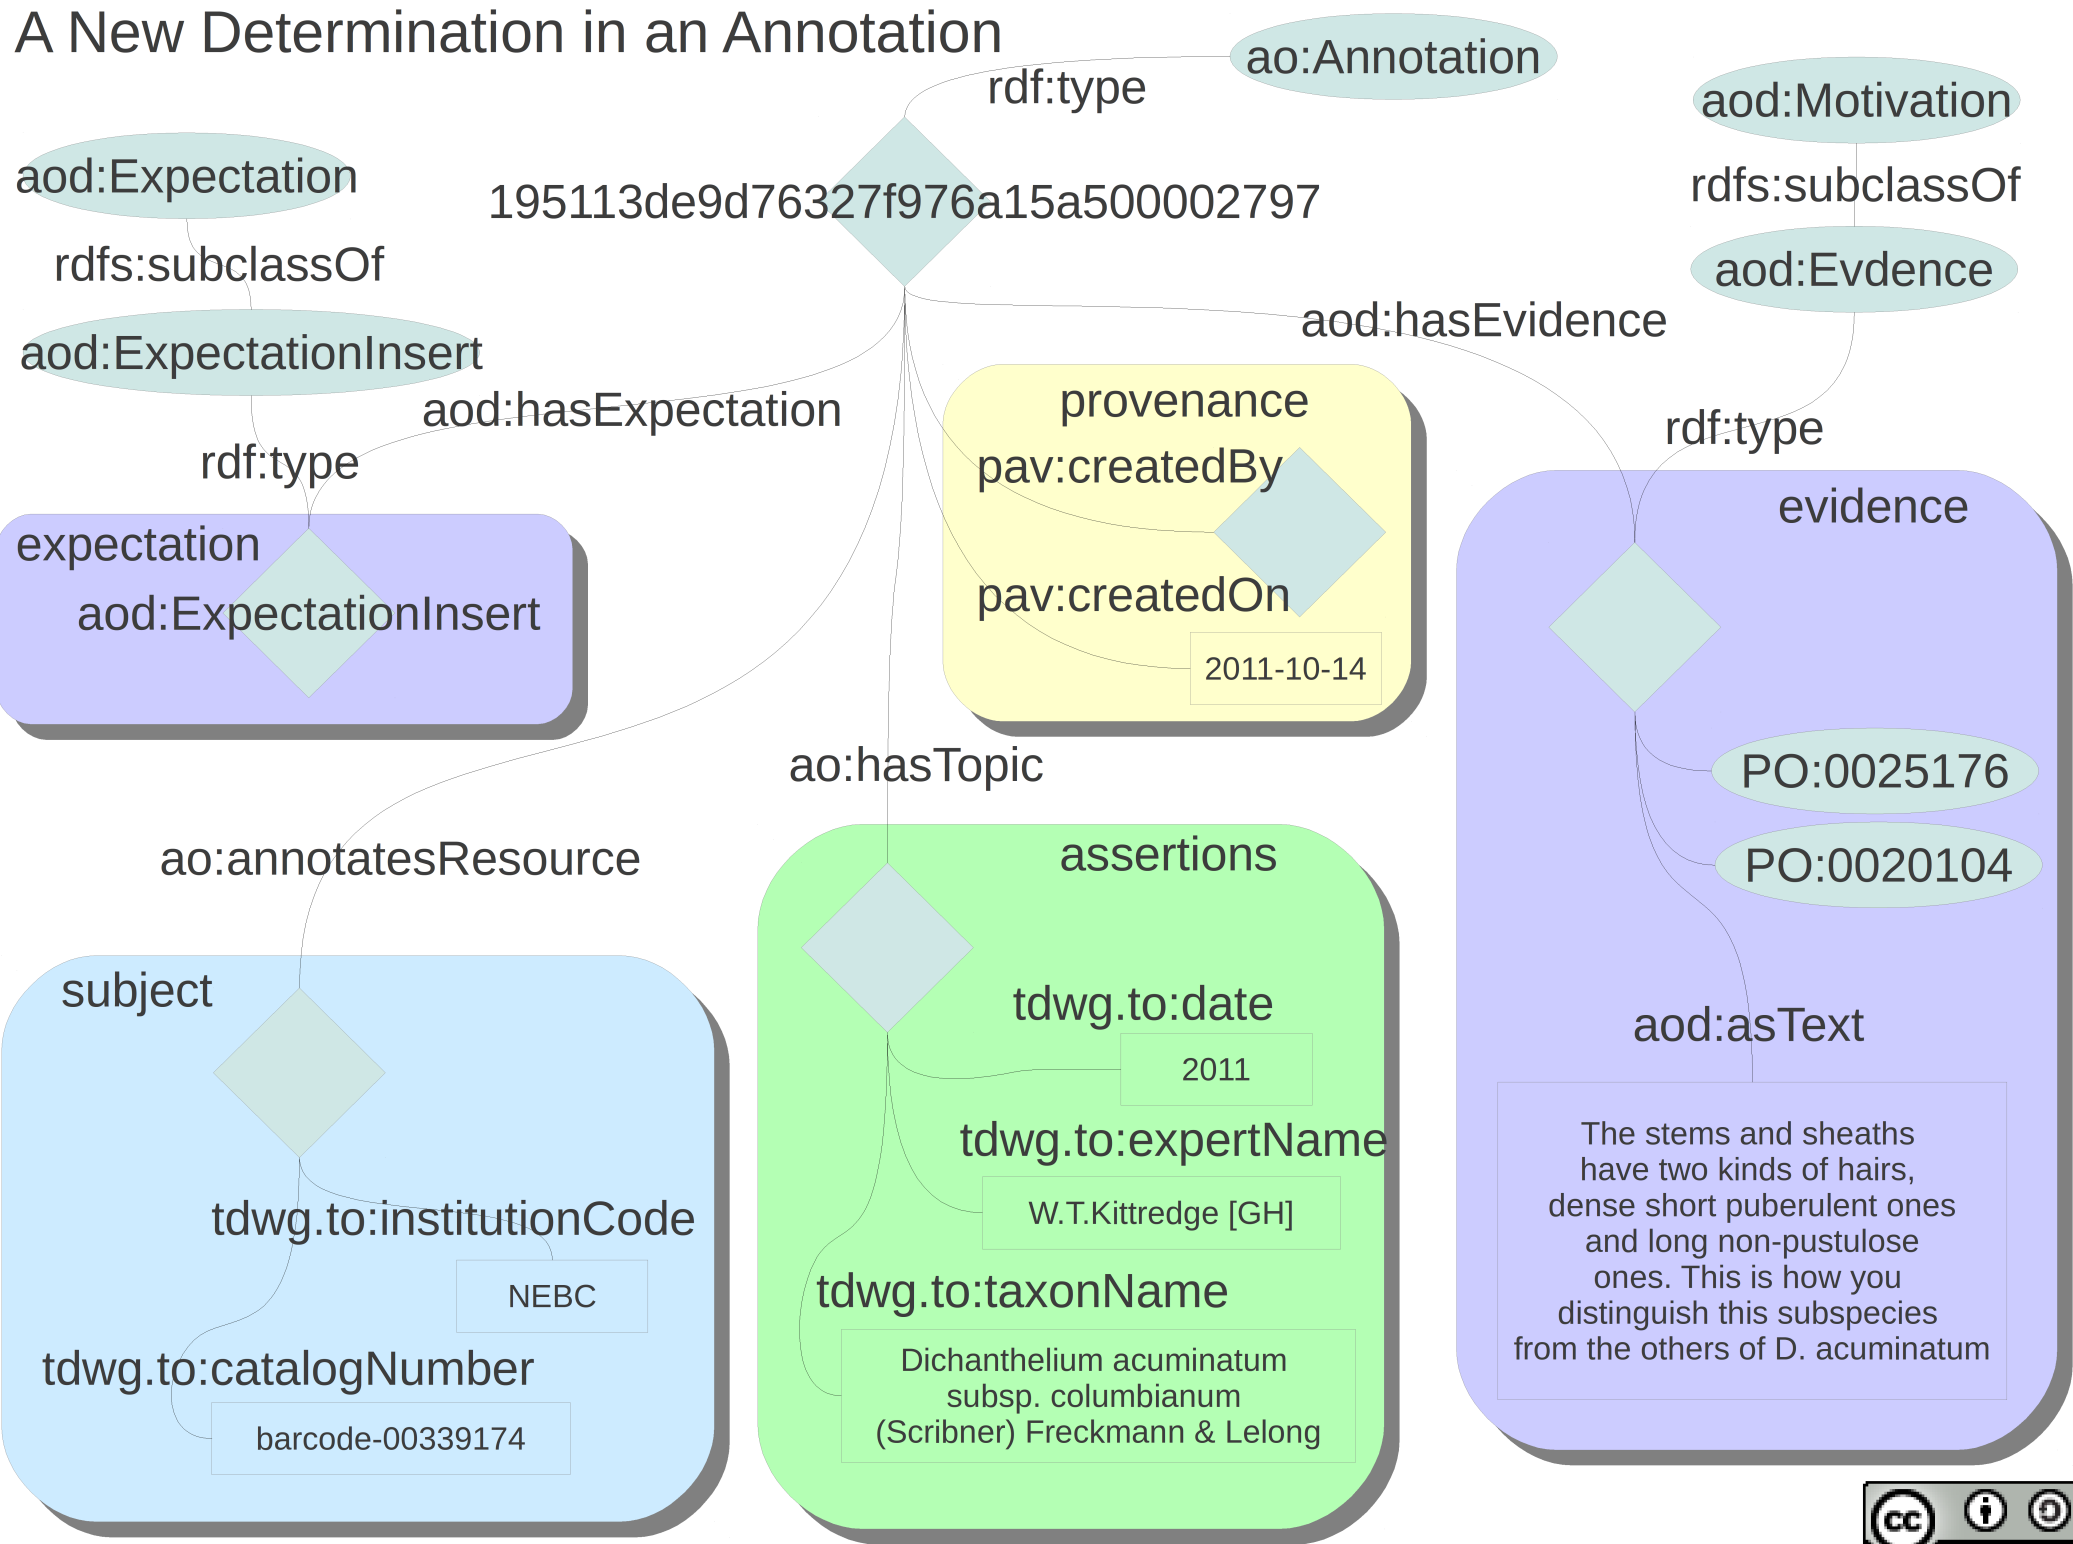

Core Technology: Annotation

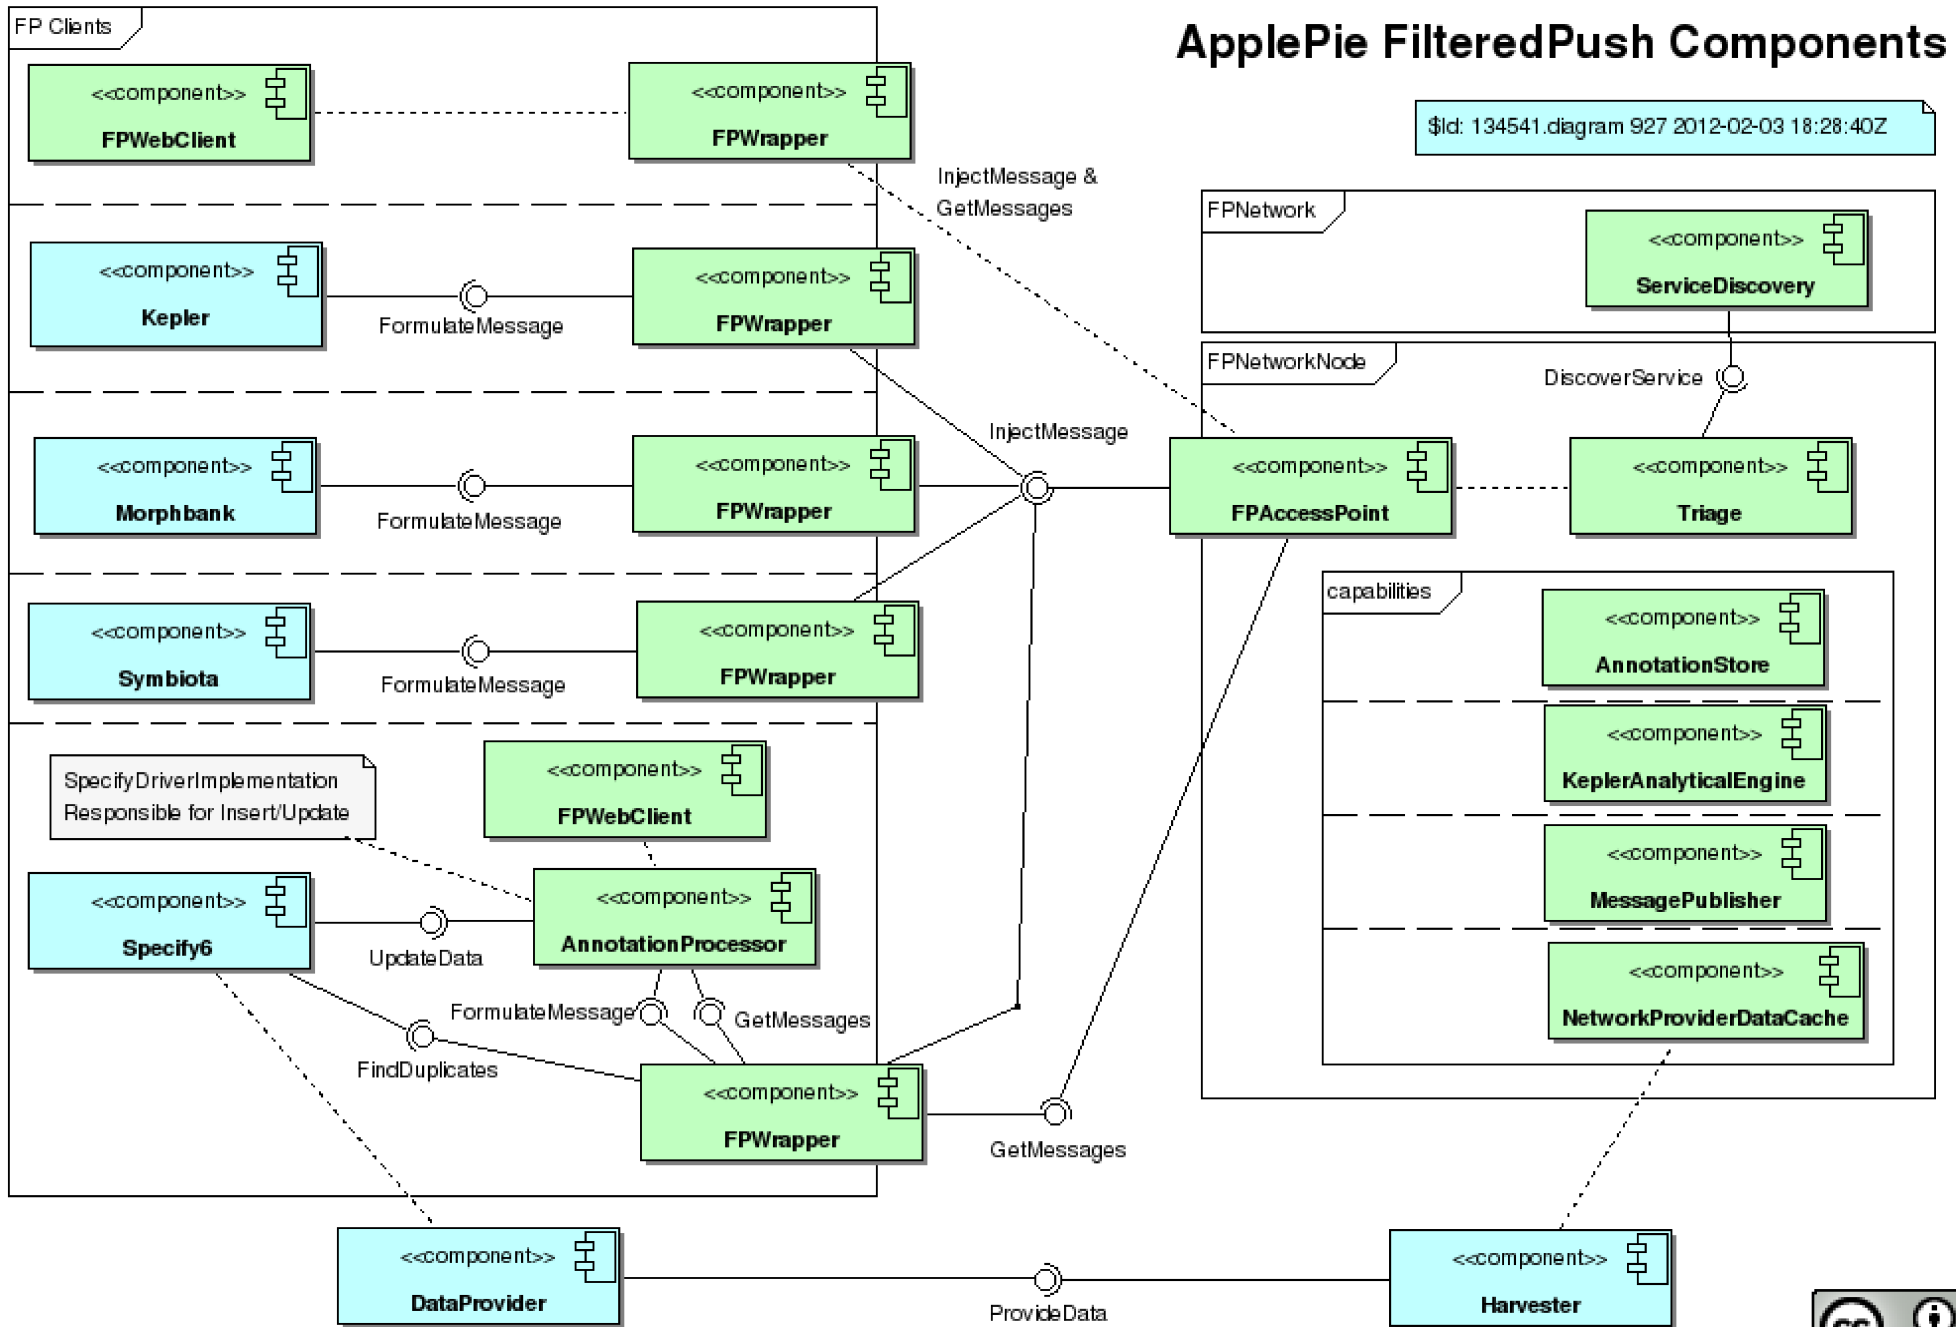

Technologies

A New Determination in an Annotation

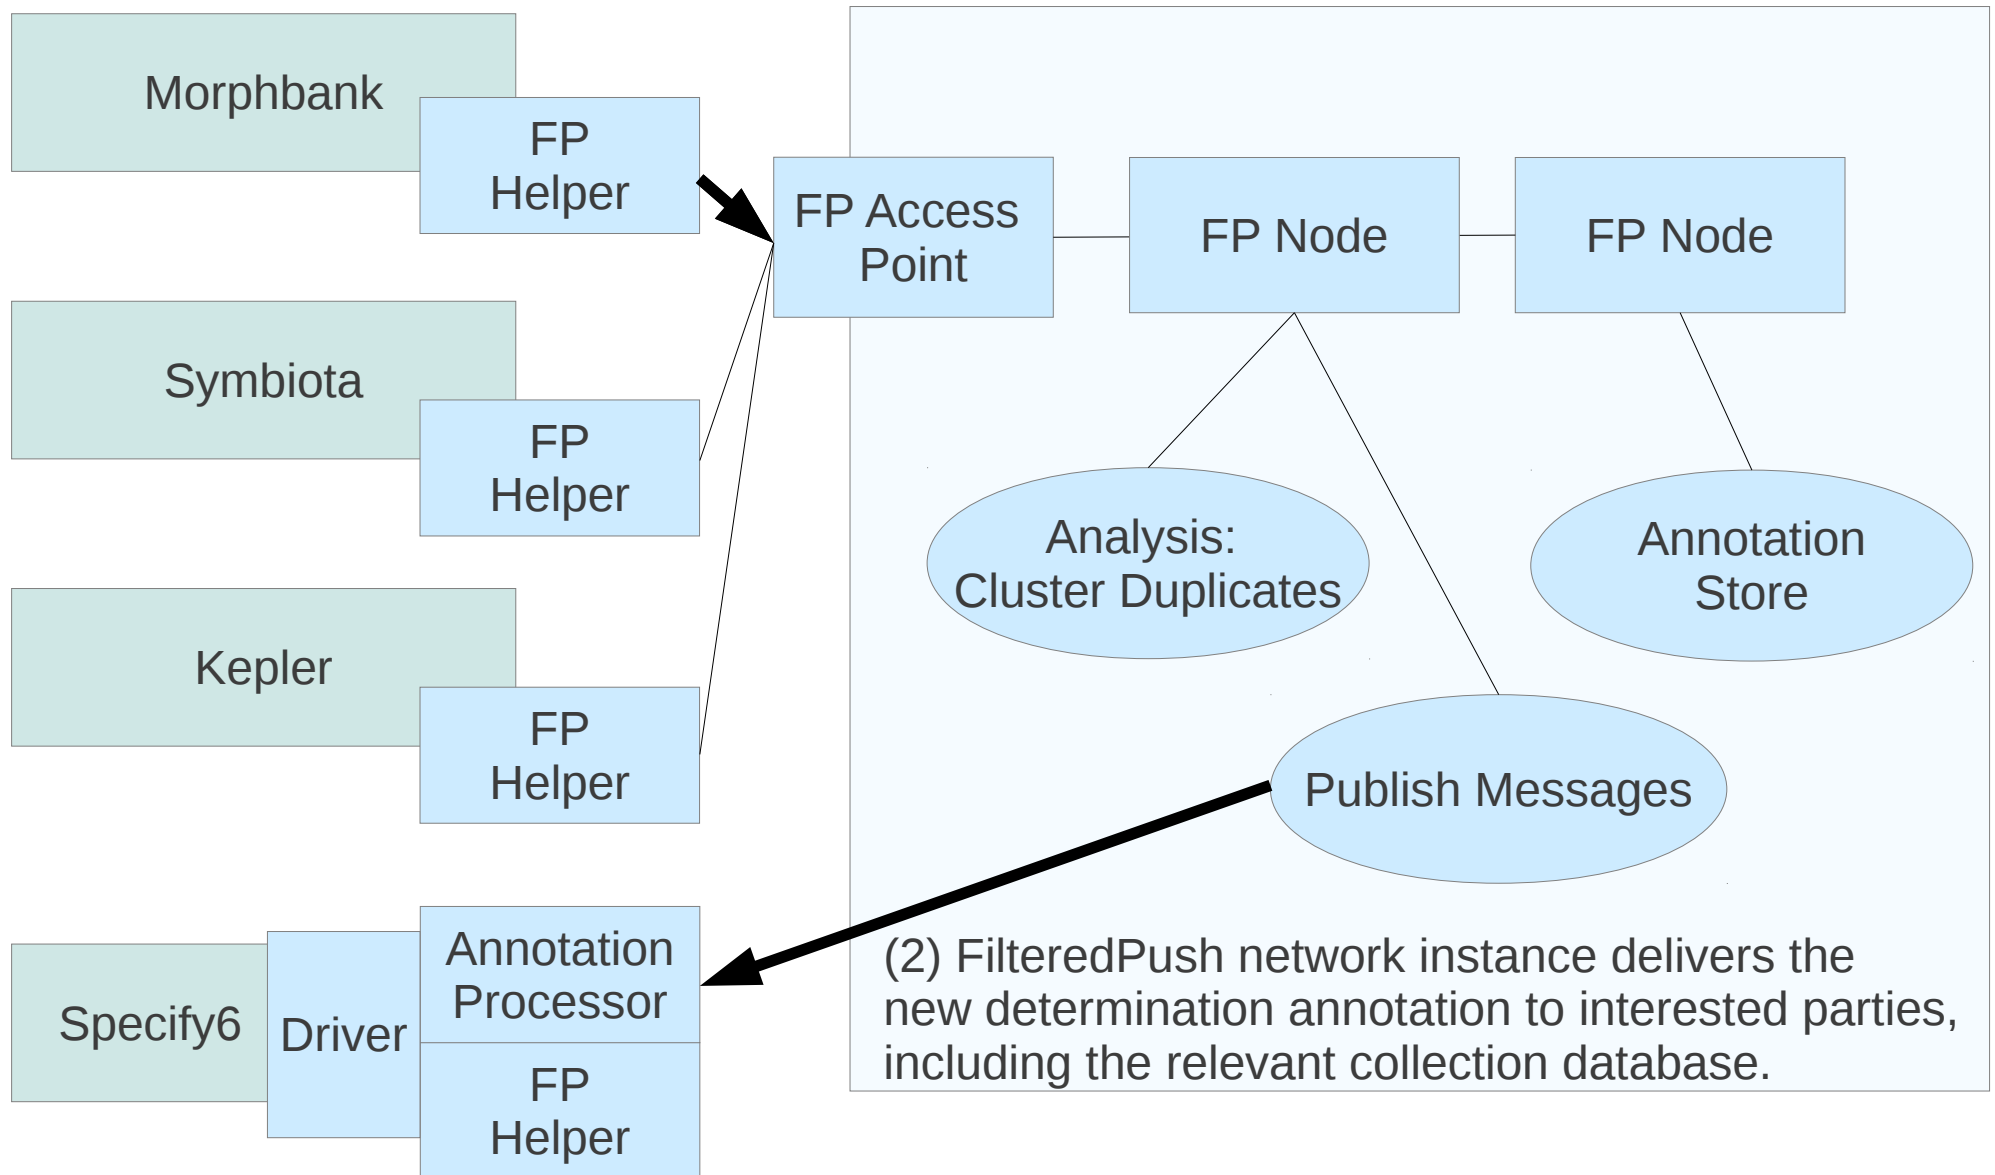

FilteredPush: ApplePie Instance

FilteredPush Instance: ApplePie

(1) Researcher viewing a specimen image in Morpbank provides a new determination

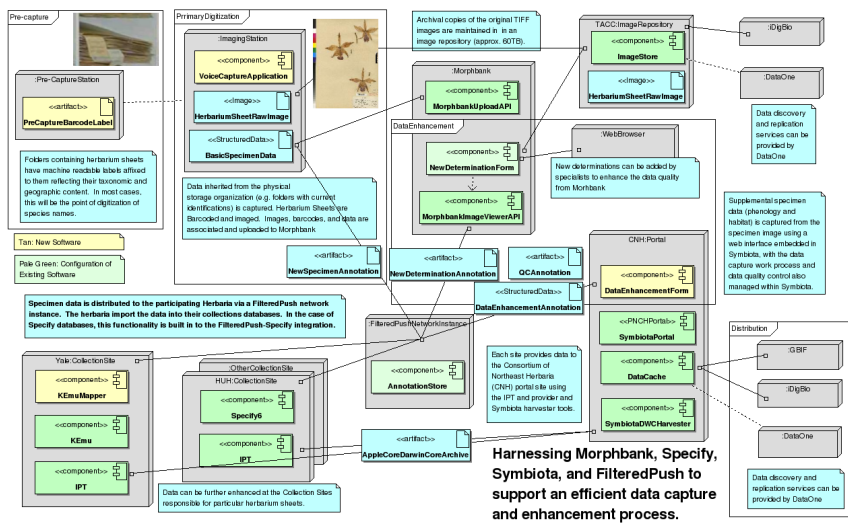

(2) FilteredPush network instance delivers the new determination annotation to interested parties, including the relevant collection database.

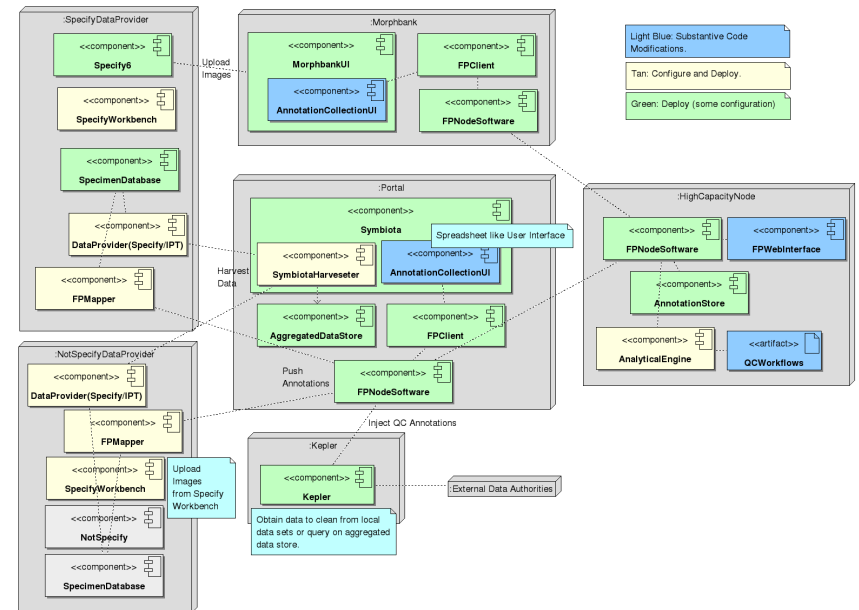

(3) Data Curator accepts new annotation as changes mapped into their Specify database.
