

# Quick Guide to the iNaturalist iPhone App

**1**  Open the app and login to create an account.

**2** Tap “More” then “Projects.” Drag down to type in a search for Natural North Carolina and tap “Join.” Repeat for other projects!

**3** Tap “Observe” 

**4** Take or choose a photo and tap “Next”

**5** Enter observation details and tap “Save”

iNaturalist now has image recognition! Tap on “What did you see?” and the app will suggest species if you are online. If nothing looks right, type in what you know about the species and click search, or browse. Click “Add” when you’ve gotten as close as you can, but try not to guess—leave this blank if you just don’t know!

**6** Click “Upload” to submit your sightings to iNaturalist!

Note: Images here depict the iPhone version of the iNaturalist app. The Android version is similar, but looks a little different.

Date and location will autofill if you have your location services enabled. Otherwise, click to edit your location.

Don’t want everyone to see where you made your observation? Choose obscured or private to publicly obscure or hide your observation.

Did this species get here on its own? If not, select “Yes.”

Choose projects to share your observation with here. You will need to add them using the “Projects” button on the home screen before you can select them here. Choose Natural North Carolina and any other projects you like!

# Quick Guide to the iNaturalist Website

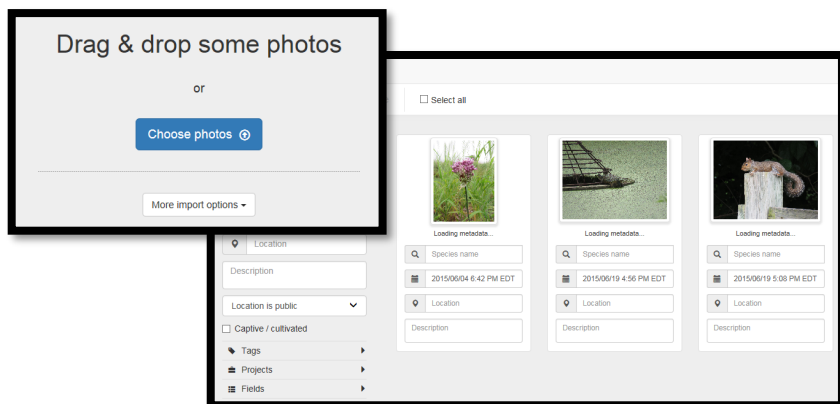

**1** Go to [inaturalist.org](http://inaturalist.org) and create an account. Login to your

**2** Click "Projects." Optional: search for Natural North Carolina and tap "Join."

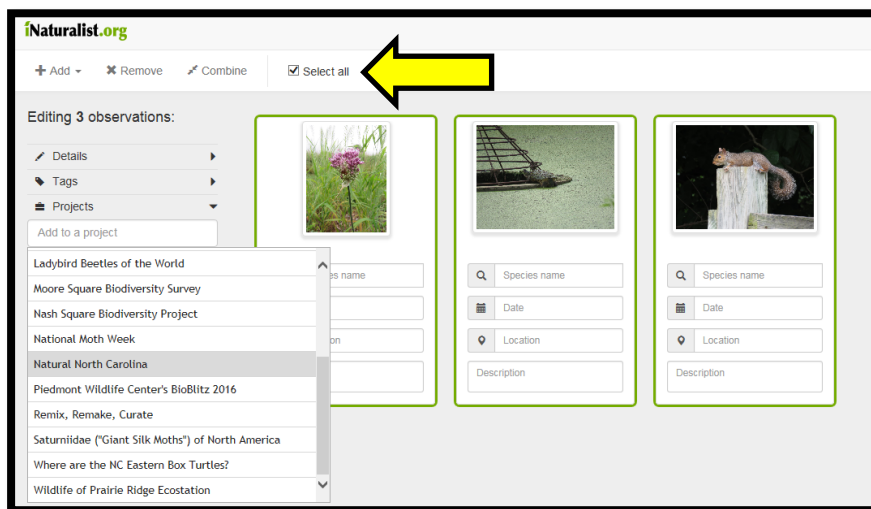

**3** Click the + Observations button in the upper right of

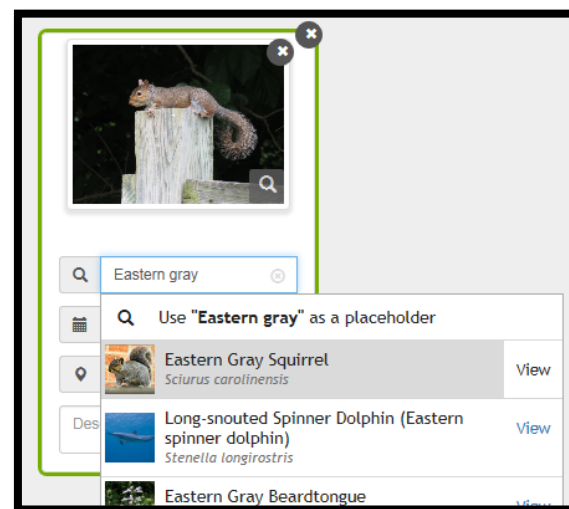

**4** Select photos and drag and drop them into the window.

**5** Your date and time will be added automatically. To add the same location, project, etc, to all photos, check the "Select all" box and add the appropriate fields.

**6** Add your ID to each photo. Choose the species (or other taxon) from the list that appears when you start typing. Note: it's best to ID your species ONLY as far as

**7** Make sure every photo has at least a date, location, and projects listed, then click "Submit" in the upper right
