

Welcome to CCBER + UCSB!!!

(Deliverables)

- Collection survey
- Workshops? ← Library
- Prioritize Needs

CSBR - digitization for collection
Security

- Collaborative

TCN branding Outreach + Education - done across all

Field Notes/DNA ← must fit research question

Threshold - # of islands

Narrow geographic scope? Bio + Depth

Across TCNs - what questions?

QUESTIONS FOR ROLAND:

PEN: MACROALGAL
TCN introduction

See
Shaw
hub

- How organize CSBR collaboration - collaborative why urgent + research community
- PI LIMITS FOR TCN/PENS
 - How big a PEN?
- CAN PENS BE COLLABORATIVE?
Yes - but typically not - what gap filling
- CAN SCOPE OF TCN EXPAND FOR PENS?
- Research Questions most interesting - human?

RESTORATION?

ARE TCNs DEPENDENT ON ↑ #S?

• RATES OF DIGIT. VS. FUNDING TO DO SO.

REGIONAL RESEARCH THEMES

- CA AS BIODIV HOTSPOT
- MED. CLIMATE / CLIMATE CHANGE
- PINE CONES? (Pollen)

→ WHOLE ORGANISM
(PARTS →)

- Susceptibility of taxa to extinction / extinction risk analyses
- URBANIZATION - exotic species
→ infectious disease

• MARINE: TERRESTRIAL LINKAGES
(MARINE PROTECTED AREAS)
(COASTAL ACIDS)
- Wetland restoration

• CRYO FACILITY

• Collecting Event DB
• Channel Islands

part 3

REGIONAL RESEARCH THEME

- CA AS BIODIV HOTSPOT
- MED. CLIMATE / CLIMATE CHANGE
- PINE CONES? (POLLEN)

unith

→ WHOLE ORGANISM
(PARTS →)

- Susceptibility of taxa to extinction;
extinction risk analyses
- URBANIZATION - exotic species
+ infectious disease

IN? • MARINE & TERRESTRIAL LINKAGES

Island Biogeography

(MARINE PROTECTED AREAS)
- OCEAN ACID
- Wetland conservation

DNA ↔ species links

• CRYO FACILITY

so. • Collecting Event DB
o Channel Islands

site of heritable
organisms
physical features

o Marine Reserves
