

Fresh Data: A use case of Global Unified Open Data Access (GUODA)

Wished for by: Jen Hammock

Supported by: iDigBio Infrastructure

->Alex Thompson, Matt Collins, Nathan Bird

Built by:

Jorrit Poelen, Eli Agbayani

Funded by: NSF CyberSEES

Primary Investigators:

Andrea Wiggins, Sea McKeon

“I have observed and reported something! Now what?”

A close-up photograph of a person's hand holding three snails. One snail is yellow, one is brown with a purple center, and one is brown with white stripes. The background is green grass.

“I have observed and reported something! Now what?”

Hey, everyone, I'm a land snail biologist! Anybody seen any near London yet this Spring?

Hello? Anybody?

A close-up photograph of a person's open palm holding several snails. The snails have shells of various colors, including yellow, brown, and purple. The background shows green grass and a black zipper. Two speech bubbles are overlaid on the image, one on the left and one on the right.

jhammock: Your observation, "Snails (Gastropoda) observed on April 2, 2011", has been sent to a subscribing biologist for her study of emergence patterns of land snails of the southern U.K. Thanks!

Dr. Chang: Your query, "Gastropoda within 50km of London", has new data available!

Queries for everyone!

- **What data are available for my area of interest?**
- **Which queries have fetched my data?**
- **What kind of data do people need from my location?**

Challenges for everyone!

- **Technical:** ideally, services should be offered to searchers and observers on their home platforms
- **Technical:** searchers must set up saved queries, and observers must deduce the meaning of their notifications
- **Social:** searchers could engage and collaborate with data providers... but will they?

A close-up photograph of a small, bright green frog sitting inside a large, yellow flower. The frog is positioned in the center of the flower's opening, looking towards the camera. The background is a soft, out-of-focus green, suggesting a natural outdoor setting. The text is overlaid on the image in a bold, black, sans-serif font.

**GUODA:
Don't be shy. We have
big, open data now.**

**What's your giant
computational
dream
???**

Thanks!
