

# UFVISITOR WIRELESS INSTRUCTIONS FOR IPHONES/IPAD'S

[For the purpose of this document I will refer to both iPad and iPhones as "iOS" devices.]

**STEP 1:** Find the settings icon on your iOS device and open the settings.

**STEP 2:** Verify Wi-Fi is turned on. If Wi-Fi is turned OFF turn it ON by clicking Wi-Fi to the ON position.

**STEP 3:** Choose a Network... Tap ufvisitor

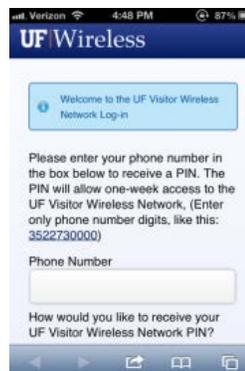

When connected

**STEP 4:** Click the home button on your iOS device

**STEP 5:** Now open up Safari on your iOS device

The webpage should automatically display.

Please fill in a phone number in the space provided and select whether you would like to receive your PIN code via Text Message or through a voice call and then click the Request PIN button.

A screenshot of a mobile application interface for requesting a PIN. The screen shows a text input field for a phone number, a radio button selection for 'Text Message' (selected) and 'Voice Call', and an orange 'Request PIN' button. The background is white with a light blue header and footer.

Text message will be sent immediately to your phone (see below). If you choose to receive a voice call wait momentarily for the call.

A screenshot of a text message received on a mobile phone. The message content reads: 'Your username is [redacted] Your newly generated PIN is 6886'. The sender's number is (352) 234-3908. The message is dated Jan 23, 2013, 4:49 PM.

**STEP 6:** Now navigate back to Safari . Enter the phone number and PIN press Login

A screenshot of a mobile application login screen. It features a text input field for the phone number, a PIN input field with four dots, and an orange 'Login' button. The background is white with a light blue header and footer.

**STEP 7:** After clicking the Login Button you will see a message that says “Welcome to the UF Visitor Wireless Network Log-in” and your default home page will be displayed. You are now successfully connected to the ‘ufvisitor’ wireless network. **This connection will be active for one week.**
